

OVERVIEW

A printer profile record (PPR) enables you to store the designation information of multiple printers for all work areas of all computers in your agency. Making use of a printer profile record has several features and benefits:

- You can designate your printers with a single entry against the information in the printer profile record.
- Invoice/itinerary printers that have the keyword DUALHI allow you to use the same printer address for both hardcopy and invoice/itinerary printing functions.
- Each pseudo city code can have up to **ten** printer profile records.
- You can also create and update a printer profile for a branch pseudo city code.

You **cannot** use printer profiles with Satellite Ticket Printers (STP).

Note: To create and delete printer profiles, your *Employee Profile Record* security feature must contain the keyword of SUBMGR.

CREATE PRINTER PROFILE

1. Enter the build mode for printer profiles.

PPB

Note: You must be in full screen mode.

2. To tell the system what types of printers you use in your office

- Type the number **1** and press **Enter**.

```
PP
ENTER SELECTION NUMBER <1>
1.  SELECT/UPDATE PRINTER TYPES FOR PRINTER PROFILE
2.  ADD NEW PRINTER PROFILE
3.  UPDATE EXISTING PRINTER PROFILE
4.  EXIT
```

3. Place an **X** in the **bracket of each desired printer function**

- Type an **X** in the **END** field and press **Enter**

Note: This example shows how to set up hard copy, ATB1 ticket (**ARC only**) and invoice/itinerary printers. Select the hard copy, ATB1 (AB) printer and invoice/itinerary printer as shown, and then enter the same printer line address for both hard copy and invoice/itinerary printer types in Step 5 below.

For ATB 2 ticket printers, you would replace the **AB** designator with **AT**.

```
PP - ENTER X TO SELECT OR SPACE TO DELETE PRINTER TYPES
DESIGNATION CODE      PRINTER TYPES
<X> PTR/              HARDCOPY
<X> W*<AB>           TICKET
< > W*< >           SECONDARY TICKET
< > GYLN             BOARDING PASS PRINTER
< > GYAB             ATB BOARDING PASS ONLY
< > GYAT             ATB 2 BOARDING PASS ONLY
< > RP1              REMOTE PRINTER
< > RP2              SECOND REMOTE PRINTER
<X> DSIV             INVOICE/ITINERARY
< > DSRP             ARC/BSP REPORTS
< > DSLB             LISTS/LABELS
<.> DSIM             MINI ITINERARY
<X> END < > IGNORE
```

4. To assign printer line addresses to the printer types you have created

- Type the number **2** and press **Enter**

```
PP
ENTER SELECTION NUMBER <2>
1.  SELECT/UPDATE PRINTER TYPES FOR PRINTER PROFILE
2.  ADD NEW PRINTER PROFILE
3.  UPDATE EXISTING PRINTER PROFILE
4.  EXIT
```

5. Type the **printer line address in the bracket marked LNIATA.**

- Type an **X** in the **IN USE** bracket and an **X** in **each work area** where you want the printer designated.
 - Do this for **each** printer type you want to assign with this printer profile.
- Type an **X** in the **END** box and press **Enter**

```
PP          PRINTER PROFILE RECORD  2  PCC0
          USE TAB KEY/ARROWS TO MOVE TO NEXT FIELD
          ENTER X TO SELECT OR SPACE TO ERASE PREVIOUS SELECTIONS
PTR TYPE  LNIATA    INUSE      A  B  C  D  E  F
PTR/      <A1B2C3>  <X>      <X><X><X><X><X><X>
W*AB      <A1B2C2>  <X>      <X><X><X><X><X><X>
DSIV      <A1B2C3>  <X>      <X><X><X><X><X><X>
<X> END < > IGNORE
```

Agencies using Total Electronic Office Environment (TEO) and the electronic ticketing only printer bypass

As part of the TEO, 100% Electronic Ticketing (ET) initiative, Sabre Travel Network® has enhanced the printer profile so that you may assign the ET Only Printer Bypass function within the printer profile.

To assign the printer for ET Only Printer Bypass functionality:

- Enter ***ETKT*** as the line address
- Type an **X** in the **IN USE** bracket and an **X** in **each work area** where you want the printer designated.
- Type an **X** in the **END** box and press **Enter**.

Note: ET Only Printer Bypass is **not** applicable to **Non-interactive Electronic Ticketing** which requires direct assignment to a physical printer line address. **Southwest Airlines** is currently the only carrier to offer Non-Interactive Electronic ticketing. You **must** ticket Southwest Airlines using Total Electronic Office (GHSTPR) procedures.

See the Electronic Ticket Only Printer Bypass and Ghost Printer Procedures quick references on *Agency eServices* or the *Format Finder* help system for more information.

Former ATB1/ATB2 stock users, ET Only Printer Bypass example:

```
PP          PRINTER PROFILE RECORD  2  PCC0
          USE TAB KEY/ARROWS TO MOVE TO NEXT FIELD
          ENTER X TO SELECT OR SPACE TO ERASE PREVIOUS SELECTIONS
PTR TYPE  LNIATA    INUSE      A  B  C  D  E  F
PTR/      <A1B2C3>  <X>      <X><X><X><X><X><X>
W*AT    <*ETKT*>  <X>      <X><X><X><X><X><X>
DSIV      <A1B2C3>  <X>      <X><X><X><X><X><X>
<X> END < > IGNORE
```

Former OPTAT stock users, ET Only Printer Bypass example:

```
PP          PRINTER PROFILE RECORD  2  PCC0
          USE TAB KEY/ARROWS TO MOVE TO NEXT FIELD
          ENTER X TO SELECT OR SPACE TO ERASE PREVIOUS SELECTIONS
PTR TYPE  LNIATA    INUSE      A  B  C  D  E  F
PTR/      <A1B2C3>  <X>      <X><X><X><X><X><X>
W*TC    <*ETKT*>  <X>      <X><X><X><X><X><X>
DSIV      <A1B2C3>  <X>      <X><X><X><X><X><X>
<X> END < > IGNORE
```

6. To complete the build process

- Type the number **4** and press **Enter**.

```
PP
ENTER SELECTION NUMBER <4>
1.  SELECT/UPDATE PRINTER TYPES FOR PRINTER PROFILE
2.  ADD NEW PRINTER PROFILE
3.  UPDATE EXISTING PRINTER PROFILE
4.  EXIT
```

ADDITIONAL CREATE FORMATS

Go directly to update printer types	PPT
Create a printer profile for a branch location	PPB/(branch pseudo city code) PPB/PCC0
Go directly to update a branch printer types	PPT/(branch pseudo city code) PPT/PCC0
Go directly to update a specific profile	PPB1
Go directly to update a specific branch profile	PPB(profile number)/(branch pseudo city code) PPB1/PCC0
